Part Number MP-1019-023
Product Description Hydraulic Oil Cooler Pressure Relief Valve

Product Image

Grayson's new pressure relief valve minimises pressure in the oil circuit, protecting the oil cooler in cold ambient conditions.

Technical Information

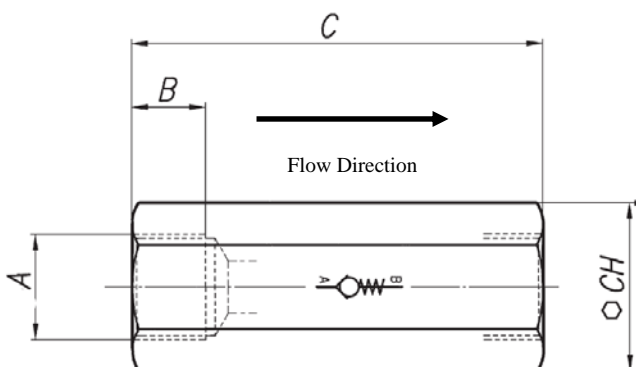

Material

Body Steel

Working Parameters

Working Pressure 350 Bar
Max Flow 80 LPM
Working Temperature -20°C/+100°C
Filtration Grade μM 25

Sizes

(A) Inlet and outlet size 3/4" BSP
(B) 20mm
(C) 88mm
(CH) 36mm

Weight 0,450kgs
